1	Complete project execution	16 years	19.05.01	35.12.31																																																																				
2	Project Preparation	28 months	19.05.01	21.08.31																																																																				
3	Project Evaluation	5 months	19.08.02	19.12.31																																																																				
4	Feasibility Analysis	6 months	20.01.01	20.06.01																																																																				
5	Market Research	7 months	20.06.02	20.12.31																																																																				
6	Requirements Analysis	6 months	21.01.01	21.05.31																																																																				
7	Cost Estimation	3 months	21.06.01	21.08.31																																																																				
8	Blue Print Design	5 years	21.10.01	25.12.31																																																																				
9	Conceptual Design	7 months	21.10.01	22.04.30																																																																				
10	Appearance Design	16 months	22.05.01	23.08.31																																																																				
11	Car Body Design	4 months	22.05.01	22.08.31																																																																				
12	Car Body Material Selection	3 months	22.09.01	22.11.31																																																																				
13	Chassis Design	6 months	22.12.01	23.05.31																																																																				
14	Chassis Material Selection	3 months	23.06.01	23.08.31																																																																				
15	Interior Design	4 months	23.09.01	23.12.31																																																																				
16	Control System Design	4 months	24.01.01	24.04.30																																																																				
17	Power System Design	5 months	24.05.01	24.09.30																																																																				
18	Safety Design	4 months	24.10.01	25.01.31																																																																				
19	Modeling and Simulation	11 months	25.02.01	25.12.31																																																																				
20	Manufacturing	3.5years	26.01.01	29.07.31																																																																				
21	Material Order	3 months	26.01.01	26.03.31																																																																				
22	Drawings Preparation	3 months	26.04.01	26.06.31																																																																				
23	Production Bidding, Select Manufactures	6 months	26.07.01	26.12.31																																																																				
24	Supervising of Production Process	3 months	27.01.01	27.03.31																																																																				
25	Quality Control(QC)	5 months	27.04.01	27.08.31																																																																				
26	Parts Production	3 months	27.09.01	28.11.31																																																																				
27	Transportation	13 months	28.12.01	28.12.31																																																																				
28	Final Assembly	6 months	29.01.01	29.06.31																																																																				
29	Acceptance of Delivery	7.5 years	29.08.01	35.12.31																																																																				
30	Trial Flight	6 months	29.08.01	30.01.31																																																																				
31	Test Flight Data Processing and Analysis	3 months	30.02.01	31.05.01																																																																				
32	Correction and Optimization	5 months	31.05.02	31.09.31																																																																				
33	Obtain Airworthiness Permit	12 months	31.10.01	32.09.31																																																																				
34	CustomerDelivery	8 months	32.10.01	33.05.31																																																																				
35	Maintenance Personnel Training	12 months	33.06.01	34.06.01																																																																				
36	Establish After-Sales Service Station	13 months	34.06.02	35.06.31																																																																				
37	Market Expansion	6 months	35.07.01	35.12.31
